

Oreo Cheese Cakelets

16	oz	cream cheese, softened
½	cup	sour cream
½	cup	sugar
1	Tbs	vanilla
2		eggs
12		Oreo cookies
		crushed Oreos for topping
		Muffin tin liners

Mix the cream cheese, sour cream, sugar, vanilla, and eggs until well combined. Line a muffin tin with paper liners (white looks the cutest), and place a whole Oreo at the bottom of each liner. Top with cheesecake mixture and crumbled Oreos (you can mix them into the cheesecake if you prefer). Bake at 275°F/135°C for 22 min. Cool completely, then refrigerate for at least 3 hours, leaving the cheesecakes in the muffin tin. Remove them from the muffin tin right before serving.
